

# Cooperative ITS Corridor demonstrations in the Netherlands

Through to mid-2017 there will be four large-scale tests on different stretches of the Dutch section of the international ITS Corridor. These tests will provide the project team with input to finalise the technical specifications of the services. Further information: [www.its-corridor.nl](http://www.its-corridor.nl)

The Netherlands oute

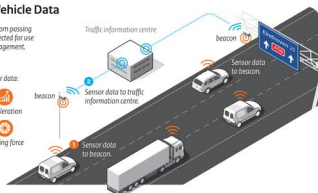

## A 16 In-Vehicle Signage/ Road Works Warning service
