

The background of the top section is a photograph of a multi-lane road stretching into the distance under a dramatic sunset sky with orange and yellow clouds. The road is flanked by trees and hills. The text is overlaid on this image.

# The future of Cooperative Mobility Services across Europe

by InterCor and ERTICO - ITS Europe  
13 February 2020 | Brussels, Belgium

## SAVE THE DATE

**A one-day event marking the end of the project  
InterCor and the start of market roll-out.**

This event will address the real-life assessment and benefits of C-ITS services operations linking corridor initiatives in Belgium, Netherlands, France and the United Kingdom into the European network. An afternoon *Focus On* session will consider the 'why, how & what' of Cooperative, Connected and Automated Mobility for the European Union. Two high level panel discussions will explore the implications of C-ITS cross border deployment and reveal the views of representatives from other C-ITS deployment initiatives, local / regional / national authorities, and the European policy makers.
